We are working on establishing our certified machine shop in 6th of October new Industrial area on Alwihat Road which is close to (KPC & QPC) fields and all Western Desert Fields, that will be working on manufacturing subs ,repairing of various drilling tools and equipments, redressing and grinding for all integrated blades Stabibilzers and all different size of sleeves and Re-cutting and rethreading of drill collars, drill pipes, tubing and all related drilling tools.

OUR VISION

Our vision is to be a standard and qualified Petroleum Services company; a market leader, offering superior brand services and know-how, across multiple sectors covering engineering and supply services, while adhering to our values of seeking excellence and success on behalf of our clients. Striving for continuous improvement in operational efficiency, building our core capabilities through innovation, and developing strategic partnerships, we will achieve our aspirations of being an internationally recognized Oil & Gas supplies manufacturer and service solution provider.

These initiatives are supported by each and every employee's relentless focus on higher quality, health, safety, and environmental responsibilities.

At UPS

we believe in empowering our greatest asset – our people – to proactively overcome challenges as we build a more productive future together.

The background image is a full-page photograph of an offshore oil rig at sunset. The rig is a large, complex structure with multiple levels, cranes, and scaffolding, supported by thick legs in the water. The sun is a large, bright, glowing orb in the upper left, casting a warm, golden light across the sky and water. A plume of white smoke or steam rises from the rig towards the upper right. In the lower right foreground, a red tugboat is visible on the water. The water reflects the golden light of the sunset.

OUR SERVICES

Since UPS established in 2013 one of our main core activities the Technical consultancy business vision is to be the partner for high value services to the Energy sector adding value by delivering innovation solution having a practical approach and utilising the knowledge and experience of our people to solve our customer issues .

CONSULTATION

SERVICES ONES

UPS maintains a comprehensive database of consultants which lists **their fields of expertise and updated CV's**.

SERVICES THREE

We are currently the most sought-after providers of consultants in Egypt, for both expatriates and local personnel, due to our capability to recruit highly experienced and technically superior consultants required by today's industry standards.

SERVICES TWO

With our expertise ranging from drilling personnel to operation managers, we are often asked to submit multiple proposals to companies that tender out for consulting services on a daily basis.

SERVICES FOUR

Our list of clients contains nearly all the major companies in Egypt as well as various companies in other Middle Eastern countries.
